Dear Mr. Larson:

RE: Final Supplemental Environmental Impact Statement (FSEIS) for Iowa 100  
Extension west of Cedar Rapids

Thank you for the opportunity to review the FSEIS for the above mentioned project. Our review finds that the FSEIS adequately addresses the concerns identified at the Draft Supplemental EIS stage. Most importantly, EPA was concerned with the lack of Section 4(f) designation and study of the Rock Island Preserve, and potential impacts to state endangered species within it. That designation and study were performed, and additional alternatives were developed. EPA reviewed that documentation in 2005-2006. Furthermore, EPA appreciates the efforts you have made to improve the documentation and coordination.

If you have any questions or comments, you can contact Joe Cothorn at 913-551-7148, or email at [cothorn.joe@epa.gov](mailto:cothorn.joe@epa.gov).

Sincerely,

A handwritten signature in cursive script that reads "Stephen Smith".
